Features

Electronic Filing

Filers can input their data as they go or all at one time. Filers can generate drafts for review. A link from your website starts the filing process. The site is hosted by NetFile but looks just like your site. Our servers ensure fast and efficient filings. The submitted filing is validated to help prevent amendments from happening in the first place.

Agency Management Tool

The system acts as your repository of filers. Create the filers in the database just once. Instant notifications to staff when an e-filing has occurred. System also handles paper filed documents. Just redact and upload for public viewing over the internet. You can even show filings by election cycle on the public site. Notification, late, and fine letters can also be automatically generated. Custom letters with your letterhead are also accommodated.

Many Years Proven Success

NetFile's local government clients in California have been using this system for several years. Don't be fooled by companies claiming to have an e-filing system but all it is doing is barcoding paper filings.

No Setup Fees

You don't have any hidden costs for setting up your agency.

Staff Support and Training Included in Fee

Being a hosted solution, you enjoy a low ongoing cost that includes both staff support and training at no additional cost to you! There is no limit to the amount of staff support or training provided to our clients.

No Long Term Commitment

All our contracts have 30-day out clauses (for any reason)!

Data is Safe and Secure

Backups are made nightly for all of you and your filer's data. The data is sent offsite to multiple locations to ensure the safety and integrity of your data.

No IT Involvement Necessary

All IT has to do is place a link on your website (that's it!)

NetFile Dedication

NetFile has been in business since 1998. Providing e-filing systems and software is all we do! There are no other distractions to keep us from servicing our clients to the fullest extent!

Document Viewing Portal - Public Site

Every e-filed document is automatically posted to the public site in redacted format. The public site includes advanced search features to help the public find the data important to them.

Document Viewing Portal - Private Site

The system also comes with a kiosk mode that allows you to show filings in unredacted form but only in your office. That way if someone walks in requesting to view a filing, just point them to one of your computers to search for the filings. They could print to your internal printer if they wanted to purchase a hard copy. No more pulling files and making copies wasting valuable staff time!

NetFile is Number One in California

NetFile is California's first internet based accounting, disclosure, and data management system. Our clients account for over half of all electronic disclosure document filings in the state of California. For our local government platform, there have been several thousand e-filings made for both our SEI Filing and admin system as well as our Campaign Disclosure filing and admin system.

Unparalleled Training and Technical Support

Our business model is based on an ongoing service with no long term contractual commitments from our clients. This guarantees you the best in training and support!
